On 14 July 2017 in the town of Smolyan a joint information meeting-seminar will be held by NAAS (Territorial Regional Office - Smolyan) and the Agricultural Academy (AA) - Experimental Station for Animal Husbandry and Agriculture - Smolyan on the topic „Diseases and pests in small-fruited fruit species”.

At the seminar Assoc. Prof. Emiliyan Popescu, PhD – ES AHA - Smolyan will present to the guests the diseases affecting chokeberry, black currant, red currant, blackberry and raspberry, as well as the pests affecting chokeberry, black currant, red currant, raspberry and blackberry.

Assoc. Prof. Emiliyan Popescu, PhD will acquaint the attendees with the control of diseases and pests in chokeberry, black currant, red currant, raspberry and blackberry.

Experts from the Territorial Regional Office of NAAS - Smolyan will explain to farmers the various opportunities for support for farmers under the Rural Development Programme RDP 2014-2020.

The event will take place in the town of Smolyan, 35 "Nevyastata" Street, in the Hall of the Experimental Station for Animal Husbandry and Agriculture (ES AHA) – Smolyan.
