

Guidelines for authors

Texts with scientific content should be structured with a summary, subheadings and references and should be sent to the editorial office at the following e-mail address:

office.pprotection@gmail.com and/or n.dintcheva@gmail.com.

Tables and figures should be numbered consecutively. Avoid repeating their data in the text of the article. Figures and photographs should be attached in separate files, noting the numbering of each individual file and the annotation to it in the manuscript. It is desirable for photographs used by the authors to indicate the source from which they were taken. The title, names of the authors, scientific degrees and titles, and place of work should be included at the beginning of the text.

Before submitting your text, authors should make sure that the research and research arguments are structured and formulated correctly and that the text shows specific scientific results.

References

References should be listed at the end of the article, and in the text, they should be given in square brackets as a sequential number from the list, for example [1]. The list should not contain more than 20 sources.
