The wine collection of DiVes Estate focused the special attention, curiosity, and professional interest of the numerous audience attracted by Divino Taste 2014, the forum of Bulgarian wine held in Sofia in November.

DiVes is one of the most recognizable brands, according to most wine experts. And this claim is by no means accidental! Because over the last few years, the labels from the "Simeonova Mogila" winery /the hill from which Simeon the Great commanded the Battle of Achelous/ – red, rosé, and white wines – have been award-winners at the most prestigious exhibitions worldwide. According to authoritative experts, DiVes Estate is part of the new glorious history of Bulgarian wine, actively and innovatively participating in charting the success on the international stage with innovative trends, unconventional fashion lines, and class.

The large audience that honored this year's Divino Taste had the opportunity and privilege to see and taste the first Bulgarian gold medalist at the Decanter World Wine Awards 2014 – the largest and most influential wine competition in the world – **Merlot Barrique 2012, Special Selection**, from the DiVes Estate winery, managed by the young specialist Dimitar Rangelov. **/Editorial Office/**
