Date: 18.03.2021 *Issue:* 3/2021

On 19 March 2021 at 10:00 a.m. an online information seminar will be held, organized by NAAS (Territorial Office – Montana) and the Agricultural University – Plovdiv on the topic: “Technological specificities in the cultivation of perennial crops under organic production methods”

The main topics of the seminar will include a presentation by Yordan Yordanov from the Agroecological Centre of the Agricultural University – Plovdiv, who will present to all interested parties the technological specificities in the cultivation of perennial crops under organic production methods. At the event, an expert from the Territorial

Office – Montana at NAAS will also explain the opportunities for support to farmers under sub-measure 2.1.2 “Advisory services for small agricultural holdings” of Measure 2 “Advisory services for farm management and farm relief services” of the RDP 2014 - 2020.

The event is organized by the National Agricultural Advisory Service (Territorial Office – Montana) and the Fruit Growing Institute – Plovdiv and aims at disseminating knowledge and information regarding agrotechnical practices leading to the production of clean food and the optimal use of resources.

Participation in the seminar is free of charge, but prior registration is required!
