Date: 13.10.2022 *Issue:* 10/2022

On 14 October 2022 (Friday) from 10:00 a.m. to 12:30 p.m. an information and training seminar will be held on the topic: „Plant health in fruit-bearing orchard crops – apples and pears in mountainous conditions” in Smolyan.

During the seminar, the participants will be introduced to the important factors in the establishment of an orchard, various agrotechnical and plant protection measures in fruit species, which are of essential importance for the health status of the crops.

In the second part of the seminar, the expected conditions for applying under sub-measure 6.1 „Start-up aid for young farmers“ of the Rural Development Programme (RDP) 2014 - 2020 will be presented.

Venue: Smolyan, Regional Administration – Smolyan, „Bulgaria“ Blvd. No 14, 5th floor, room 504.

Organisers: National Agricultural Advisory Service, Territorial Regional Office (TRO) – Smolyan and Bulgarian Food Safety Agency, Regional Directorate for Food Safety (RDFS) – Smolyan.
