Date: 24.11.2022 *Issue:* 11/2022

On 25 November 2022 (Friday) from 10:00 a.m. to 12:00 p.m. an online seminar will be held on the topic: „Modern technologies in vegetable production“.

During the online seminar, the participants will be acquainted by Assoc. Prof. Dimka Khaitova, PhD, Agricultural University - Plovdiv, with the basic principles of production, varietal requirements and important technological aspects in the cultivation of tomatoes, short-fruited cucumbers (gherkins), onions and watermelons.

During the second part of the seminar, the participants will be informed about the opportunities for support to farmers under sub-measure 6.1 "Start-up aid for young farmers" of measure 6 "Development of farms and enterprises" of the Rural Development Programme (RDP) 2014 - 2020.

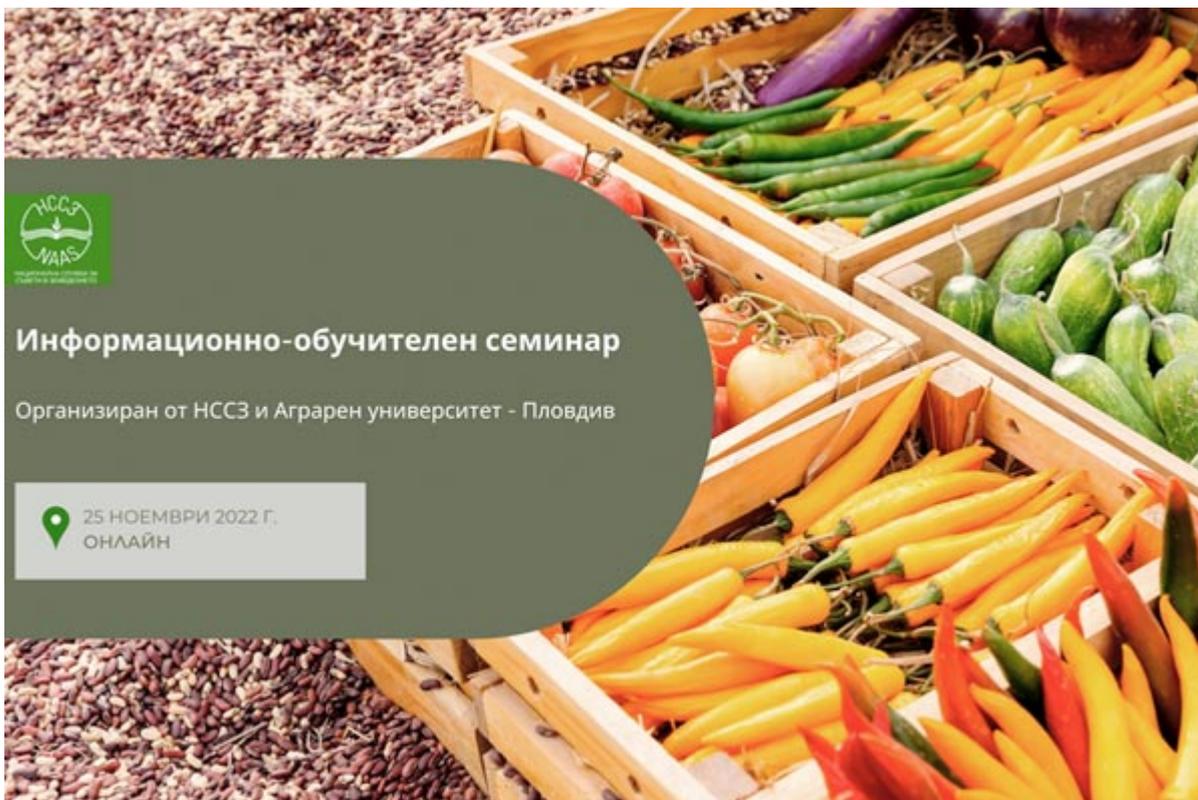

Participation is free of charge, but prior registration is required!
