Univoq® is a fungicide that provides exceptional preventive, stopping, and curative action against all economically important diseases in cereal crops. Through the new active substance Inatreq™, Univoq® ensures reliable control of key wheat diseases such as rust species and septoria leaf blotch – including strains resistant to other active substances.

- New active substance – Inatreq™ active;
- New IQ-4™ formulation for 100% coverage and uptake.
- Long-lasting and reliable efficacy;
- Stopping action in all stages of pathogen development.
