 **Ривиор™ Прайм**
Пакет

 syngenta.

This season we have the pleasure to present to you the latest addition to our portfolio of fungicides with an exceptionally good price/quality ratio **Rivior Prime**.

Times are difficult, therefore the decisions that are made must be increasingly precise and economically justified!

Our mission and primary aspiration are aimed at providing the most appropriate solutions, in line with the main trends on the market.

For these reasons we have chosen exactly **Rivior Prime!**

Rivior Prime is a product for the first treatment in cereal crops with an extremely good systemic action. It has an excellent preventive and strong curative effect.

Rivior Prime provides the opportunity to plan with confidence the protection of cereal crops against diseases from the very first opportunity.

Already in the launch season you can take advantage of the special price of **Rivior Prime**.

Order **Rivior Prime** from here: <https://promosyngenta.bg/>

Rivior Prime the new fungicide with triazole from Syngenta! The far-sighted decision from Syngenta!
