

Cherry Festival 2016

Author(s): Растителна защита
Date: 17.06.2016 *Issue:* 6/2016

This year again, the Institute of Agriculture in Kyustendil and Kyustendil Municipality are expecting their guests at the end of June to present the diversity of cherry cultivars characteristic of the region. The folklore and artistic programme includes demonstrations of crafts, arranging cherry panels, as well as a free sightseeing tour of the town of Kyustendil. The exhibition of the fruits of orchard labour in Bulgaria started in the town of Kyustendil in 1896, when the First National Pomology Exhibition was established and the town received the title “Mother of Bulgarian Fruit-Growing”.

From 24 to 26 June, a Cherry Festival will be held in Kyustendil, which traditionally presents the Kyustendil region as the Orchard of Bulgaria.

The first day will be held under the motto “The Cherry in Crafts”. Dozens of craftsmen from all over the country will arrange their products in the Town Garden. Works of art dedicated to the cherry

will be exhibited – dolls, jewellery, sculptures, icons, masterfully crafted by the skilful hands of artists and craftsmen.

In parallel, the folklore festival “Chereshchitsa rod rodila” will take place. The rich artistic programme is dedicated to the magic of the cherry and its impact on Bulgarian folklore.

The highlight of the festival is the competitive exhibition, in which community centres, non-governmental organizations, associations, kindergartens and schools from Kyustendil and the region take part.

Every year, the partner of the Municipality is the Institute of Agriculture – Kyustendil, which presents the diversity and innovations in cherry production in the Kyustendil region. Director of the Institute is Prof. Dimitar Domozetov, PhD, Chair of the commission for evaluating the participants in the exhibition.

At the end, the winners of the exhibition for the best and most attractive presentation will be determined, and the cherries are distributed and eaten.
