Dobrich Fair JSC for the 25th consecutive year is organizing the International Exhibition „Agriculture and Everything for It”, which will be held in the period 29 August – 2 September 2017, at SC „PROSTOR“ in the city of Dobrich.

The exhibition is an established forum of modern business in Bulgaria, a center for discussing contemporary challenges and development trends in agriculture in the European Union, for the exchange of information, and for establishing contacts between producers and the scientific community. More than 90 companies have submitted applications for participation, among them from Romania, Turkey, Greece and Italy. The organizers report increased interest in the event, as 30% of the participants will take part in it for the first time. At the

exhibition you can also learn about the new for Bulgaria organic foliar fertilizer from ground rocks, which will bring a true revolution in the field and in the garden.
