On 21 February 2018, a joint information meeting-seminar of NAAS (Territorial Regional Office - Sliven) and the Bulgarian Food Safety Agency (BFSA) - Regional Directorate for Food Safety (RDFS) - Sliven will be held in the town of Sliven on the topic: "Plant-protection activities and control over the use of plant protection products in the cultivation of fruit crops".

At the seminar, Maria Todorova, Head of the "Plant Protection" Department at RDFS-Sliven, will acquaint the guests with compliance with the requirements of the Plant Protection Act in relation to the implementation of the

measures under the RDP 2014-2020.

Donka Keranova, Chief Inspector “Plant Protection“ at RDFS-Sliven, will present to the seminar participants the phytosanitary control in fruit crops.

Silviya Belicheva, Chief Inspector “Plant Protection“ at RDFS-Sliven, will explain to the farmers the marking and accompanying documents in the trade in fruit and vegetables.

The experts from the Territorial Regional Office of NAAS - Sliven will present to the audience the opportunities for support to agricultural producers under the measures of the RDP 2014-2020.
