Vegetables (SZ), the subsidies paid amount to 29,115,000 leva, and under the Scheme for Coupled Support for Vegetables – Greenhouse Production (SZo) – 4,254,286 leva.

In the published indicative schedule it was envisaged that the subsidies under these schemes would be paid in the period from 1 to 10 April. By decision of the Management of the Fund „*Agriculture*“, the payments under the schemes for fruit and vegetables – greenhouse production were made earlier, and therefore indicative rates were used in the calculations for each of the schemes.

After completion of the verification of all documents proving the quantities of production, the exact rates will be determined. On this basis, a recalculation will be made, whereby farmers will receive an additional payment up to the full utilisation of the funds under the scheme.
