An average of over 7,500 visitors passed through the exhibition stands daily. The Agricultural Forum took place from March 4th to 8th at the International Fair, Plovdiv. In just the first two days, more than 15,000 guests from the country and abroad filled the halls to see the seven exhibitions. "This became the economic event of Southeastern Europe at the moment," commented Dr. Ivan Sokolov, Chairman of the Board of Directors of the International Fair Plovdiv. The most visited were the International Agricultural Exhibition "Agri 2015" and the specialized exhibition "BioAgri," where farmers and specialists came to compare notes in the field of agriculture. The modern stands of plant protection product companies, executed in contemporary design, attracted attention. Presentations of new products were part of the representation of leading companies in the field.
