The owners of the Burgas-based trading company "Apogey-91" – Anushka Kasurova, Penka Ruseva, and Antonina Karagyozova – opened a super-modern facility in the "5th Kilometer" area near the city: a warehouse complex for the storage and trade of plant protection products, seeds, and fertilizers. The location provides all modern technological mechanisms for implementing high-quality and environmentally sound logistics practices.

Part of this key display of investment activity and the creative market policy of the "Apogey-91" management team were the heads and managers of partner companies.

You can read more about this event in issue 10/2014 of the magazine "Plant Protection & Seeds and Fertilizers".
